The Recent History of OTA TV. Back in 2009, the FCC mandated that the country switch from analog to digital television. At the beginning of that year, over 10% of households in the US had TVs that weren’t ready to support the new digital format. When the big day came, about a quarter of those households had decided to upgrade to cable or satellite television while the rest opted for a...

A tactical air navigation system, commonly referred to by the acronym TACAN, is a navigation system used by military aircraft. It provides the user with bearing and distance (slant-range or hypotenuse) to a ground or ship-borne station. It is a more accurate version of the VOR/DME system that provides bearing and range information for civil aviation. The DME portion of the TACAN system is...
