We still advise you to read our CCNA 200-125 Lab Suggestions Page, as some of that info is still very helpful. It didn't go away yesterday. It didn't go away yesterday. However, take that with a grain of salt, as this is the most current info.

CCNA 200-301 Lab Suggestions - CertificationKits.com

The configuration is very simple with only two lines on R1. In the first line, BGP configuration begins with a familiar type of command: the router bgp command, where AS number is the BGP AS number used by that router (same as EIGRP, OSPF configuration).. The next command defines the IP address of the neighbor.

CCNA Training » Basic BGP Configuration
