Aristotle's account of female nature has received mostly negative treatment, emphasising what he says females cannot do. Building on recent research, this book comprehensively revises such readings, setting out the complex and positive role played by the female in Aristotle's thought with a particular focus on the longest surviving treatise on reproduction in the ancient corpus, the Generation of Animals. It provides new interpretations of the nature of Aristotle's sexism, his theory of male and female interaction in generation, and his account of inherited features. It also discusses a range of more general issues which can and should be re-examined in light of Aristotle's account of female animals: his methodology, hylomorphism, teleology and psychology. Aristotle on Female Animals will be valuable to all those interested in Aristotle's philosophy and the history of gender.

From controversial cryptozoologist and explorer Dr. Veronica Wigberht-Blackwater, The Compendium of Magical Beasts is a definitive field guide that explores the history, biology, and anatomy of mythological creatures. Approaching the fantastic with a scientific eye, Dr. Wigberht-Blackwater explains the history, habits, and biology of each creature's existence with equal attention to detail. Her research is accompanied by stunning scientific illustrations of each specimen's anatomy, providing a comprehensive view of creatures most often dismissed as pure fantasy. Combining biological fact with folklore, cultural studies, and history, this volume is crucial to science both fringe and mainstream. Locked in a dusty attic for almost a century, Dr. Wigberht-Blackwater's trailblazing work was recently discovered by writer Melissa Brinks, who spent months transcribing the journals she found. Brinks joined forces with artist Lily Seika Jones to digitize the doctor's amazingly detailed anatomical diagrams in order to share these revolutionary findings with the world for the first time. The Bestiary: Mermaid, Unicorn, Wild Man, Gnome, Werewolf, Troll, Fairy, Jackalope, Winged Horse, Centaur, Minotaur, Vampire, Dragon, Sea Monsters/Loch Ness/Kraken, Goblin, Sphinx, Phoenix, Harpy, Cyclops, Banshee, Incubus/Succubus, Nymph, Ghoul, Selkie, Kelpie

A strange and mystical prophecy was found in the city of Treebarad. On a piece of parchment, old long-forgotten events come back to life, the memory of which was intentionally erased. A mysterious prophecy now gives hope to the twisted ruling race that the power they seek lies behind an ancient gate. On the reverse side of the oracle are coordinates to the location of the Chosen One. Lael is an introverted and naive writer who grew up with a book in one hand and a quill in the other. All his life, he has lived in a peaceful solitude, reading and writing his short stories and dreaming big of one day becoming a prestigious author. To his surprise and delight he must now become savior of the Star people and take the journey to find answers that do not exist in books.

An extraordinary biography. A gallery of astonishing work. The legacy of a madman. Philadelphia, the late 1870s. A city of gas lamps, cobblestone streets, and horse-drawn carriages—and home to the controversial surgeon Dr. Spencer Black. The son of a grave robber, young Dr. Black studies at Philadelphia 's esteemed Academy of Medicine, where he develops an unconventional hypothesis: What if the world 's most celebrated mythological beasts—mermaids, minotaurs, and satyrs—were in fact the evolutionary ancestors of humankind? The Resurrectionist offers two extraordinary books in one. The first is a fictional biography of Dr. Spencer Black, from a childhood spent exhuming corpses through his medical training, his travels with carnivals, and the mysterious disappearance at the end of his life. The second book is Black 's magnum opus: The Codex Extinct Animalia, a Gray 's Anatomy for mythological beasts—dragons, centaurs, Pegasus, Cerberus—all rendered in meticulously detailed anatomical illustrations. You need only look at these images to realize they are the work of a madman. The Resurrectionist tells his story.
