Bobcat® oil filters help you achieve a full engine life and match the demand of high-performance diesel engines. Their metal filter housing is thicker than competing oil filters, which prevents failure under pressure. Plastisol securely seals the filter media into metal end caps, whereas other oil filters use fewer stable sealants, such as glue. Heavy-duty coil springs maintain the media cartridge seal under pressure.

Engine Oil Filters | Genuine Bobcat Parts

Description. Genuine Bobcat oil filters capture metals, soot, and contaminants to a higher cleanliness standard. Full-flow, spin-on design which provides easy servicing and reduces risk of contamination. Durable and thicker metal filter housing to prevent failure. This book outlines procedures for servicing and repairing vehicles using safe, effective methods.

During the Second World War, the Japanese took control of the Philippines, driving the United States forces from the islands. While in control the Japanese confiscated and stockpiled immense amounts of gold and other treasures and hid the plunder in caves, vaults, and private homes throughout the Philippines while awaiting shipment to Japan. Most of that treasure never reached Japan. In the sixty-five years since then, many treasure hunters have roamed the islands searching for the bounty. Although some of the riches has been found, the majority still remains hidden throughout the islands. "Mindanao Gold" is the story of a group of treasure hunters in search of that hidden treasure. The adventure takes two energetic young miners from the safe confines of Elko, Nevada, to the treacherous jungles on the island of Mindanao. Follow them as they attempt to find and retrieve the gold and escape dangerous Muslim bandits. What price will they pay in their quest for the gold?

"This is a biography of Milt Schornack, one of Detroit's top mechanics in the 1960s, who pioneered the Ram Air system and, as a tuner and driver, became the face of Pontiac's legendary GTO"--Provided by publisher.

The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive “need-for-speed” engines of the late ’60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various “captive imports” (e.g. Dodge’s Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer’s significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

Marking the 50th anniversary of an icon of American industry, this book celebrates a half-century of Bobcat with brilliant images of these quintessentially American machines at work, including historical photographs and diagrams, alongside the full story of the only compact machines that have ever mattered. Often imitated but never equaled, the Bobcat skid-steer loader was born when some hardy souls in the Northern Plains needed a new way to get work done. The pictures in these pages show how the Bobcat loader has been moving American industry ever since, joined over the years by Bobcat excavators and trenchers, utility trucks and more. Bobcat Fifty Years chronicles the changes and innovations that have kept the company at the forefront of the nation’s compact machinery makers--from the invention of the Bob-Tach quick-change attachment system to the introduction of the Big Bob, the Mini-Bob, and the M-700, the first hydrostatic loader of its size. Here, again and again, is evidence of why Fortune Magazine named the Bobcat one of “America’s best”--one of the 100 American-made products that represent the best of their kind, anywhere in the world.
