A college agent is a certified and qualified professional who helps high school students and family with the transition from high school to college. A college agent's goal is the same as the high school student and family, to find the right college, right location and the right price. Every college agent must go through the CPI training to learn and understand the entire college process. Each college agent works as an independent entrepreneur choosing their own schedule, time and goals. Each college agent connected to CPI represents all services and products offered by CPI. This CPI College Agent Career Training Manual gives every college agent in depth instructions to learn the college process including how scholarship, financial aid, grants, endowments, FAFSA, EFC and more works to help high school students and family. High school students and family need help and the college agent is their answer. We work with Academic and Athletic high school students in their search for the right college, right location, right price and the right college coach. A college agent has a rewarding career and becomes an important person in a high school student's life by helping achieve their goal of a college education and for many students, achieve an athletic scholarship.

Active shooter mass killings have become a horrible reality in our society and no

place is immune to them. In this book, Michael Julian, CPI, PPS, CSP shares how essential the appropriate actions you take in the first ten minutes of an active shooting can be for your survival. How every second counts to stay alive. Julian provides simple tools to help you in the event you find yourself in this type of scenario. He teaches you how to prepare yourself using a security mindset, and fight through your fear with a survival mindset so you can evaluate your situation and react appropriately. Specifically, Julian shows you how to: Become more aware of your surroundings, Prepare for such an event by being "proactively reactionary," Evaluate an active shooter situation more quickly and efficiently, Decide and take the best action necessary for your survival, Dominate the attacker, if necessary, using a kill or be killed mentality, Navigate the chaos that comes after the event, and Train family, friends, and coworkers how to do the same. Julian's insight helps you prepare for the worst. This alone could be the difference between life and death in the face of a horrific experience.

The Consumer Price Index Manual: Concepts and Methods contains comprehensive information and explanations on compiling a consumer price index (CPI). The Manual provides an overview of the methods and practices national statistical offices (NSOs) should consider when making decisions on how to deal with the various problems in the compilation of a CPI. The chapters cover many topics. They elaborate on the

different practices currently in use, propose alternatives whenever possible, and discuss the advantages and disadvantages of each alternative. The primary purpose of the Manual is to assist countries in producing CPIs that reflect internationally recommended methods and practices.

This Technical Assistance Report discusses the technical advice and recommendations given by the IMF mission to the authorities of Uganda about the concepts and methods used to compile the consumer price index (CPI). The conceptual basis of the rebased CPI was extensively discussed during the IMF mission. The rebasing was considered to be an opportunity to change the conceptual basis of the CPI and to compile weights using the domestic concept. The Uganda National Household Survey (UNHS) data were compared with household consumption derived in the supply and use tables. Tobacco and beer for instance are significantly underreported in the UNHS. Adjustment of the weight for under- or overreporting by comparing the UNHS data to other sources is recommended.
