Preface: a book about advice, not an advice book -- Introduction: the company you keep -- You are just like Coca-Cola: selling your self through personal branding -- Being generic--and not--in the right way -- Getting off the screen and into networks -- Didn't we meet on LinkedIn? -- Changing the technological infrastructure of hiring -- The decision makers: what it means to be a hiring manager, recruiter, or HR person -- When
moving on is the new normal -- Conclusion: we wanted a labor force but human beings came instead

*Don't read this book if you don't like snarky, dominant, tattooed men who say things like "Open your mouth, and I will," after you tell them to shove it. And don't read this book if you don't like sassy, strong-willed, fiercely independent heroines who use phrases like "bossy asshole" as a term of endearment. You have been warned.* "Tattooed package of sin." That's how Savannah Ryan would describe her new boss, Declan Whitmore, the
deliciously tatted and pierced fighter who holds the top spot in Boston's newest underground fighting organization. She'd also describe him as bossy, arrogant, and—depending on what he does to piss her off that particular day—an asshole. It's that aloof attitude, along with Savannah's witty comebacks and tight little body that land her on his radar. Unfortunately for her, Declan is relentless when he sets his sights on someone, both in and out of the ring. Unfortunately for him, this recently reformed bad girl is trying to go straight after heading down a dangerous path. She's not
going to make this easy for him. In fact, she's going to make it—and him—very, very hard. Declan's not worried, though. He'll have Savannah come hell or high water, because if there's one word he'd use to describe her, it's "MINE."

The most accurate and comprehensive picture of homelessness to date, this study offers a powerful explanation of its causes, proposes short- and long-term solutions, and documents the striking contrasts between the homeless of the 1950s and 1960s and the contemporary homeless population, which is younger and
contains more women, children, and blacks.

Down and Out in the Great Depression is a moving, revealing collection of letters by the forgotten men, women, and children who suffered through one of the greatest periods of hardship in American history. Sifting through some 15,000 letters from government and private sources, Robert McElvaine has culled nearly 200 communications that best show the problems, thoughts, and emotions of ordinary people during this time. Unlike views of Depression life "from the bottom up" that rely on recollections recorded several
decades later, this book captures the daily anguish of people during the thirties. It puts the reader in direct contact with Depression victims, evoking a feeling of what it was like to live through this disaster. Following Franklin D. Roosevelt's inauguration, both the number of letters received by the White House and the percentage of them coming from the poor were unprecedented. The average number of daily communications jumped to between 5,000 and 8,000, a trend that continued throughout the Roosevelt administration. The White House staff for answering such letters--most of
which were directed to FDR, Eleanor Roosevelt, or Harry Hopkins—quickly grew from one person to fifty. Mainly because of his radio talks, many felt they knew the president personally and could confide in him. They viewed the Roosevelts as parent figures, offering solace, help, and protection. Roosevelt himself valued the letters, perceiving them as a way to gauge public sentiment. The writers came from a number of different groups—middle-class people, blacks, rural residents, the elderly, and children. Their letters display emotional reactions to the Depression—despair,
cynicism, and anger—and attitudes toward relief. In his extensive introduction, McElvaine sets the stage for the letters, discussing their significance and some of the themes that emerge from them. By preserving their original spelling, syntax, grammar, and capitalization, he conveys their full flavor.

The Depression was far more than an economic collapse. It was the major personal event in the lives of tens of millions of Americans. McElvaine shows that, contrary to popular belief, many sufferers were not passive victims of history. Rather, he says, they were "also actors and, to an extent,"
playwrights, producers, and directors as well," taking an active role in trying to deal with their plight and solve their problems. For this twenty-fifth anniversary edition, McElvaine provides a new foreword recounting the history of the book, its impact on the historiography of the Depression, and its continued importance today.

Returning home to Bugtussle, Mississippi, to recover from heartbreak, Graciela, while working as a substitute teacher and constantly being set up on blind dates, must
get to the bottom of a mystery involving her late grandmother.

Themes: Hi-Lo, Sports, urban teens, Football. Finding the "right book" for struggling learners is essential to build both confidence and proficiency. Reading supports must be seamless, so that struggling readers are not stigmatized. The District 13 series does just that--written using carefully chosen vocabulary and simple sentences, the novels offer compelling teen stories about characters that interest young adult readers. Using sports as a backdrop, these edgy and
mature titles confront issues that are of great importance to urban teens, especially teenaged boys: Coming of age, dating, fitting in, friendships, drugs, self-esteem, and school. Straightforward plots move readers through the 48-pages of text quickly and efficiently with satisfying resolutions.

Synopsis: Terrance thought about football. He was sore from practice. That was good. Coach Fisher said his blocks were better. He'd get to play in the game! Coach was right about football. You've got to have something to work for. It makes you work at everything.

Looks at the history of homelessness in America, from colonial times to the present day.

It’s 9:10 PM in the Chatham County Communications Center. The dispatchers stare at each other, afraid to move, afraid to breathe. One minute to go. Will tonight be the night? The clock on the wall changes. 9:11. A phone rings. The screens indicate the 9-1-1 call is coming from a blocked number. The dispatchers hope and pray it’s a coincidental call for service. Perhaps a car break-in or a bar fight. With all eyes on
her, one dispatcher presses a button, puts the call on speaker for everyone to hear. “Chatham 9-1-1. What’s your emergency?” The distorted voice comes across the speaker. He gives the address. There will be a body at that location. That’s for certain. The killer dares the police to catch him and then, like before...he’s gone. Former Pittsburgh narcotics detective Trevor Galloway and new P.I. Bethany Nolan are enlisted to look into the case of the 9-1-1 Killer and the investigation takes an unexpected turn when Galloway suggests the murderer may be a first responder. Galloway is pushed to the limit as
he wonders if his hallucinations are returning and if members of a drug gang that want him dead have tracked him to Savannah, Georgia. Galloway soon discovers he doesn’t trust the police. He doesn’t trust his client. He doesn’t even trust himself. Praise for THE BETTER OF THE BAD: “J.J. Hensley has pulled off an incredible feat: The Better of the Bad is a real rush with a gripping mystery at its heart. The Trevor Galloway series gets bigger, badder, and more energetic with every book.” —Nick Kolakowski, author of Boise Longpig Hunting Club and Maxine Unleashes Doomsday
Down and Out is a heartfelt, hilarious novel about the dilapidated America we live in—not some imagined place where the dream remains alive. How Briseño manages to leave us feeling hopeful is nothing short of a miracle. --Colin Winnette, author of Haints Stay and The Job of the Wasp

Down and Out's momentum churns on such a cruel premise for a reality television show—about poverty and suffering deliberately exploited for mass entertainment—that we know it could and must be true. As a new economy violently supplants the old, a parade of hardworking
people is caught between twisting gears and unspooling film. Down and Out delivers these quiet episodes of smalltown desires, failures, and dreams, which we are lucky to witness as one season of this world fades into the next. —Dolan Morgan, author of Insignificanica In Down and Out, J. Andrew Briseño sees something like hope where others would merely gawp. This book is sad and funny and an outrage and the good kind of weird and at the end of it all just really really human, with images of small factory-town life that sit somewhere between the bible and a Springsteen song getting all defrauded and

Page 33/36
wrong through a reality TV lens that refuses to look away or stop meddling in what might be good if it could just be let alone. Deep down, it's a book about what it is to be moral, how we're always losing it, how we sometimes get it back that way. I need J. Andrew Briseño. We all do. --Zach VandeZande, author of Apathy & Paying Rent

Luke Williams flies to Kuala Lumpur coming down off crystal meth without plans or much cash. He is in Asia for three years. He spends time working as a prostitute in Pattaya, eats snake heart in Vietnam,
consults an American medium in Ubud, and explores the eye-popping red light scenes in Jakarta and the Philippines. Along the way, he encounters other Westerners who go to Asia for the things they can't find at home - riches, wives, ladyboys, cheap living and even cheaper drugs, cults, spices, mountains, tropical beaches, beach gigolos, 'self-esteem' necklaces, and ascended masters. Luke fully immerses himself in every environment and encounter, going far beyond reportage, while aspects of his own history - his dreams, disappointments, urges, and his inherited struggle with mental illness -
begin to catch up with him. He becomes addicted to Valium, is haunted by the past, and ends up in jail. Ultimately, Luke is confronted by what is and what was, and his own footprint upon it all.
