The one-drop rule is a social and legal principle of racial classification that was historically prominent in the United States in the 20th century. It asserted that any person with even one ancestor of black ancestry ("one drop" of black blood) is considered black (Negro or colored in historical terms).

stool. Sometimes, the dog's stool is normal, but at the end of the bowel movement, the dog leaks a few droplets of blood.

You've seen your own blood, when you have a cut or a scrape. You can see the veins in your wrist, and you've seen the scab that forms as a cut heals. But do you know what blood does for you? Without blood, you couldn't play, or grow, or learn. That's because just about every part of your body needs blood, from your muscles to your bones to your brain. How does your body use blood? Read and find out! Ages 10 - 14

A vivid portrayal of the Civil War. Johnny, fourteen, convinces his mother to let him join a wagon train carrying food to Confederate soldiers. He has been brought up to believe that all blacks are stupid; thus, when captured by a black Union soldier who insists that Johnny teach him to read, he deliberately tricks him. The boy is surprised the soldier saves him from imprisonment and their relationship grows throughout the book.

A brilliantly conceived and vividly drawn story--Washington, D.C. on the eve of Abraham Lincoln's historic second inaugural address as the

lens through which to understand all the complexities of the Civil War

By March 4, 1865, the Civil War had slaughtered more than 700,000 Americans and left intractable wounds on the nation. After a morning of rain-drenched fury, tens of thousands crowded Washington's Capitol grounds that day to see Abraham Lincoln take the oath for a second term. As the sun emerged, Lincoln rose to give perhaps the greatest inaugural address in American history, stunning the nation by arguing, in a brief 701 words, that both sides had been wrong, and that the war's unimaginable horrors--every drop of blood spilled--might well have been God's just verdict on the national sin of slavery. Edward Achorn reveals the nation's capital on that momentous day--with its mud, sewage, and saloons, its prostitutes, spies, reporters, social-climbing spouses and power-hungry politicians--as a microcosm of all the opposing forces that had driven the country apart. A host of characters, unknown and famous, had converged on Washington--from grievously wounded Union colonel Selden Connor in a Washington hospital and the embarrassingly drunk new vice president, Andrew Johnson, to poet-journalist Walt Whitman; from soldiers' advocate Clara Barton and African American leader and Lincoln critic-turned-admirer Frederick Douglass (who called the speech "a sacred effort") to conflicted actor John Wilkes Booth--all swirling around the complex figure of Lincoln. In indelible scenes, Achorn vividly captures the

frenzy in the nation's capital at this crucial moment in America's history and the tension-filled hope and despair afflicting the country as a whole, soon to be heightened by Lincoln's assassination. His story offers new understanding of our great national crisis and echoes down the decades to resonate in our own time.

A bold and original retelling of the story of race in America Why has a nation founded upon precepts of freedom and universal humanity continually produced, through its preoccupation with race, a divided and constrained populace? This question is the starting point for Scott Malcomson's riveting and deeply researched account, which amplifies history with memoir and reportage. From the beginning, Malcomson shows, a nation obsessed with invention began to create a new idea of race, investing it with unprecedented moral and social meaning. A succession of visionaries and opportunists, self-promoters and would-be reformers carried on the process, helping to define "black," "white," and "Indian" in opposition to one another, and in service to the aspirations and anxieties of each era. But the people

Bookmark File PDF Drop Of Blood

who had to live within those definitions found them constraining. They sought to escape the limits of race imposed by escaping from other races or by controlling, confining, eliminating, or absorbing them, in a sad, absurd parade of events. Such efforts have never truly succeeded, yet their legacy haunts us, as we unhappily re-enact the drama of separatism in our schools, workplaces, and communities. By not only recounting the shared American tragicomedy of race but helping us to own, even to embrace it, this important book offers us a way at last to move beyond it.

car, on the outskirts of Cork, DS Katie Maguire finds what's left of him. But this is only the beginning. The judge's death sparks a gang war fought with bullets and bombs, and civilians are caught in the crossfire. As the city spirals deeper into violence, Ireland's most fearless detective must find the courage to fight for her hometown one last time. Katie Maguire is no stranger to sacrifice - but she has lost so much already. Facing new horrors each day, Katie must decide: can she do her duty when she has nothing left to give? Praise for Graham Masterton: 'One of this country's most exciting crime novelists. If you have not read one, read them all now' Daily Mail. 'A tough and gritty thriller with an attractive principal character' Irish Independent. 'Graham Masterton is a natural storyteller' New York Journal of Books. 'Any fan of mysteries should grab this book' Irish Examiner.

While visiting New Orleans with their family, brothers Rob and T.K. are led to DePray's Curiosity Shop where they encounter century-old vampires, and are astounded to learn their beloved grandmother has a remarkable gift. Most incredible of all, T.K. is condemned to a life as a vampire, and Rob is transformed into his brother's protector, with the gift of prophecy.

As the director of the Department of the Army's Central Identification Laboratory, Robert Dean "Kel" McKelvey has made a career solving some of the country's most complex identification cases. The CIL is responsible for identifying all U.S. war dead from battlefields old and new around the world. The caseload is endless, the endgame invaluable. Kel's work -- the examination of a bone or bone fragment -- may bring blessed closure to thousands of military families and loved ones left behind. But after fifteen years at the CIL, Kel is fast approaching emotional meltdown. And that's when he encounters his thorniest case yet: the recovery of Jimmie Carl Trimble, a soldier from Arkansas who died a hero's death during the Vietnam War. When a rare DNA sequence turns up at both the Army and FBI labs, it points to the unthinkable: a link between Trimble and a forty-year-old unsolved racial killing in the Arkansas delta. Partnered uneasily with the volatile FBI Special Agent Michael Levine, Kel must peel back decades of silence to reveal a complex web of stolen identity, betrayal, patriotism, collusion, and lies. Taking readers deep inside the fascinating world of military and civilian forensic science, *One Drop of Blood* is a pitch-perfect thriller by a talented new author who knows the terrain better than anyone.
