This book focuses on heat and mass transfer, fluid flow, chemical reaction, and other related processes that occur in engineering equipment, the natural environment, and living organisms. Using simple algebra and elementary calculus, the author develops numerical methods for predicting these processes mainly based on physical considerations. Through this approach, readers will develop a deeper understanding

of the underlying physical aspects of heat transfer and fluid flow as well as improve their ability to analyze and interpret computed results.

Rainbow Boa snakes are among the most beautiful snakes in the world. In fact, because they are aesthetically appealing, possess calm personalities and remain smaller than many gigantic constrictors, rainbow boas have become some of the most popular snakes in the world. This popularity has led many keepers to breed rainbow boas, thereby making it easy for enthusiasts to work with these
