Everybody procrastinates. Students, parents, employees, employers, and every other human can't help but procrastinate. No matter what you do, it's close to impossible to get rid of procrastination if you're not good at time management. Time management and procrastination are very closely related as one affects the other.

"'Organized" and "artist" don't usually go together. Creative types are more often seen as sensitive, melodramatic, eccentric, misunderstood, and the like. To labels like this, Sam Bennett says, "Congratulations! You're an artist." And through The Organized Artist Company, she has coached hundreds of artists to overcome procrastination, lack of focus, and time-sucking habits so that they can get their art done and out into the world. Bennett explains why "procrastination is genius in disguise" and then prescribes dozens of wonderfully revelatory exercises. From "My Heroes" lists to "Could Do" lists (because To-Do lists make Bennett belligerent) to recognizing who you should not talk to about your project and when research has created Analysis Paralysis, each of these actions requires only a 15-minute commitment. But while quickly accomplished, each shifts the reader's thinking and prompts the kind of insights that have the power to turn underperforming geniuses into accomplished artists"--

Simple, science-based tools to stop procrastination Even with overflowing inboxes, thousands of unread notifications, and unmet deadlines, most people still can't manage to take control of their time and stop procrastinating. The End of Procrastination tackles this ubiquitous issue head on, helping you stop putting off work and reclaim your time. Author Petr Ludwig shows that ending procrastination is more than a wise time management strategy; it's essential to developing a sense of purpose and leading a happier more fulfilled life. The keys to overcoming procrastination are simple. With eight clear, approachable tools from quick daily worksheets to shift your perspective to to-do lists that actually help you get things done! The End of Procrastination provides everything you need to change the way you manage your time and live your life. Based on the latest research, The End of Procrastination synthesizes over one hundred scientific studies to create a program that is based on the way our brains actually work. By understanding exactly why procrastination happens and how our brains respond to motivation and self-discipline, the book provides readers with the knowledge to conquer procrastination on an everyday basis.

DON'T WAIT TO READ THIS BOOK: The world's leading expert on procrastination uses his groundbreaking research to offer understanding on a matter that bedevils us all. Writing with humour, humanity and solid scientific information reminiscent of Stumbling on Happiness and Freakonomics, Piers Steel explains why we knowingly and willingly put off a course of action despite recognizing we'll be worse off for it. For those who surf the Web instead of finishing overdue assignments, who always say diets start tomorrow, who stay up late watching TV to put off going to sleep, The Procrastination Equation explains why we do "or in this case don't" and why in Western societies we're in the midst of an escalating procrastination epidemic. Dr. Piers Steel takes on the myths and misunderstandings behind procrastination and motivation "showing us how procrastination affects our lives, health, careers and happiness and what we can do about it. With accessible prose and the benefits of new scientific research, he provides insight into why we procrastinate even though the result is that we are less happy, healthy, even wealthy. Who procrastinates and why? How many ways, big and small, do we procrastinate? How can we stop doing it? The reasons are part cultural, part psychological, part biological. And, with a million new ways to distract ourselves in the digitized world "all of which feed on our built-in impulsiveness "more of us are potentially damaging ourselves by putting things off. But Steel not only analyzes the factors that weigh us down but the things that motivate us "including understanding the value of procrastination.

A marvel of evolution is that humans are not solely motivated by their desire to experience positive emotions. They are also motivated, and even driven to achieve, by their attempt to avoid or seek relief from negative ones. What Motivates Getting Things Done: Procrastination, Emotions, and Success explains how anxiety is like a highly motivating friend, why you should fear failure, and the underpinnings of shame, distress, and fear in the pursuit of excellence. Many successful people put things off until a deadline beckons them, while countless others can't resist the urge to do things right away. Dr. Lamia explores the emotional lives of people who are successful in their endeavors both procrastinators and non-procrastinators alike to illustrate how the human motivational system works, why people respond to it differently, and how everyone can use their natural style of getting things done to their advantage. The book illustrates how the different timing of procrastinators and non-procrastinators to complete tasks has to do with when their emotions are activated and what activates them. Overall, What Motivates Getting Things Done illustrates how emotions play a significant role in our style of doing, along with our way of being, in the world. Readers will acquire a better understanding of the innate biological system that motivates them and how they can make the most of it in all areas of their lives.

Do you procrastinate? And if so, what's your procrastination type? In this fun and illustrated guide, author Jennifer Shannon blends acceptance and commitment therapy (ACT) and cognitive behavioral strategies to help you recognize your procrastination habits, discover the strengths of your unique procrastination type, and find the motivation you need to meet important deadlines and reach your highest goals. In the midst of modern-day distractions like smartphones, social media, and endless hours of movie and television streaming, it's no wonder you procrastinate! But despite what you may have heard, procrastination doesn't make you a bad or lazy person. In fact, procrastination may even work for you sometimes creating a sense of urgency that can help you focus. But if procrastination doesn't work for you, it can get in the way of meeting your full potential in high school, college, your career, and life. So, how can you get things done and be your very best? In A Teen's Guide to Getting Stuff Done, you'll discover your procrastination type/warrior, pleaser, perfectionist, or rebel as well as the unique strengths inherent in each type. If you're a warrior, you love a good challenge, but may not be able to complete tasks you find uninteresting. If you're a pleaser, you may be so concerned about disappointing others that you postpone doing something. If you're a perfectionist, you may put things off because you're worried about your work being judged by teachers, parents, or peers. And finally, if you're a rebel, you're driven by a strong sense of independence. By understanding your type and using the practical strategies laid out in each chapter of this book, you'll be able to break the cycle of procrastination once and for all. This isn't a manual on how to please your parents, teachers, professors, or friends. This is a book to help you understand why you procrastinate, whether or not procrastination works for you, and if not, how to improve your work habits and really get things done. By helping you uncover your own unique strengths, this book will help you master your to-do list and your life!
