Recruited by a spy organization that is separate even from MI-6 to perform her most dangerous feat yet, American ex-pat Maggie Hope, given a new identity, is parachuted into Berlin where she must ultimately destroy a major part of the German war machine. Original.

Susan Elia MacNeal introduced the remarkable Maggie Hope in her acclaimed debut, *Mr. Churchill's Secretary*. Now Maggie returns to protect Britain's beloved royals against an international plot—one that could change the course of history. As World War II sweeps the continent and England steels itself against German attack, Maggie Hope, former secretary to Prime Minister Winston Churchill, completes her training to become a spy for MI-5. Spirited, strong-willed, and possessing one of the sharpest minds in government for mathematics and code-breaking, she fully expects to be sent abroad to gather intelligence for the British front. Instead, to her great disappointment, she is dispatched to go undercover at Windsor Castle, where she will tutor the young Princess Elizabeth in math. Yet castle life quickly proves more dangerous—and deadly—than Maggie ever expected. The upstairs-downstairs world at Windsor is thrown into disarray by a shocking murder, which draws Maggie into a vast conspiracy that places the entire royal family in peril. And as she races to save England from a most disturbing fate, Maggie realizes that a quick wit is her best defense, and that the smallest clues can unravel the biggest secrets, even within her own family.

"Maggie Hope has come a long way since serving as a typist for Winston Churchill. Now she's working undercover for the Special Operations Executive in the elegant but eerily silent city of Paris, where SS officers prowl the streets in their Mercedes and the Ritz is draped with swastika banners. Walking among the enemy is tense and terrifying, and even though she's disguised in chic Chanel, Maggie can't help longing for home. But her missions come first. Maggie's half-sister Elise has disappeared after being saved from a concentration camp, and Maggie is desperate to find her—that is, if Elise even wants to be found"—

"Maggie Hope is off to Hollywood to solve a crime that hits too close to home--and confront the very evil she thought she had left behind in Europe--as the acclaimed World War II mystery series from New York Times bestselling author Susan Elia MacNeal continues. Los Angeles, 1943. As the Allies beat back the Nazis in the Mediterranean and the United States military slowly closes in on Tokyo, Walt Disney cranks out wartime propaganda and the Cocoanut Grove is alive with jazz and swing each night. But behind this sunny façade lies a darker reality. Somewhere in the lush foothills of Hollywood, a woman floats, lifeless, in the pool of one of California's trendiest hotels. When American-born secret agent and British spy Maggie Hope learns that this woman was engaged to her old flame, John Sterling, and that he suspects her death was no accident, intuition tells her he's right. Leaving London under siege--not to mention flying thousands of miles--is a lot to ask. But John was once the love of Maggie's life . . . and she won't say no. Maggie is shocked to find Los Angeles as divided as Europe itself--the Zoot Suit Riots loom large and the Ku Klux Klan casts a long shadow. As she marvels at the hatred in her home country, she can't help but wonder what it will be like to see her lost love once again. But there is little time to dwell on
