Medical Assisting, 4/e addresses the most current competencies for medical assisting certification, CPR procedures, coding and insurance billing requirements, HIPAA regulation, OSHA guidelines, and
clinical diagnostic testing such as hemoglobin A1c (diabetes) testing. Thorough coverage of procedures remains an asset and Anatomy & Physiology coverage is included in separate chapters. It trains students on medical office administrative procedures and equipment, clinical procedures, infection control, anatomy and physiology, assisting with patients, medical emergencies and first aid, laboratory procedures, nutrition, pharmacology, diagnostic equipment, and much more.

Launch your career in medical assisting with Today's Medical Assistant, Clinical & Administrative Procedures, 3rd Edition! Bringing together the clinical know-how of Kathy Bonewit-West, the administrative expertise of Sue Hunt, and the anatomy and physiology knowledge of Edith Applegate, this hands-on guide uses easy-to-follow language and detailed visuals to walk readers through all of the medical knowledge, procedures, and skills needed for success in today's fast-paced medical office. Not only does this new edition incorporate the latest standards and competencies throughout all of its content and resources, but it also includes an incredibly wide assortment of engaging learning tools and activities that help readers fully understand and demonstrate those competencies. If you want to be fully prepared for tomorrow's medical assisting profession, then look no further than Today's Medical Assistant! Consistent and meticulous coverage throughout the main text, Evolve resources, study guide, and SimChart for the Medical Office provide reliable content and unparalleled accuracy on the responsibilities of the modern medical assistant. The most up-to-date content outfits readers with the latest information and insights on key topics such as: electronic medical records (EMR), HIPAA, and advanced directives documentation, evaluation & management, office and hospital services (billing & coding) emergency preparedness ICD-10 coding medical office technology medical aspesis, OSHA Bloodborne Pathogens Standard; AIDS & Hepatitis, latex glove allergies vital signs pediatrics, immunization information, IM injection (theory), child abuse colonoscopies IV therapy CLIA waived tests Unique learning aids throughout the book include: procedure charting examples outlines, detailed learning objectives, and key terms for each chapter Highlight boxes What Would You Do? What Would You Not Do? boxes Patient Teaching boxes On the Web boxes Putting It All into Practice boxes Memories from Practicum boxes glossary of key terms Arsenal of engaging activities on the Evolve companion site gives users a fun way to practice their medical assisting knowledge. Over 120 procedures give readers clear, illustrated guidance on each step of every procedure. The procedural videos on the Evolve companion site enable users to view the procedures in action. 8th grade reading level makes material approachable and easy to understand for all types of readers. Full-color design makes the book visually stimulating. NEW! Chapter on nutrition underscores the CAAHEP curriculum's emphasis on nutrition by covering all of the latest nutritional information that pertains to today's medical assistants. NEW! Updated chapters on emergency preparedness and medical records ensure readers are up to date on the latest advances and rulings in these topical areas. NEW! Updated content aligned to the most recent CAAHEP and ABHES competencies ensures readers have the latest information needed to obtain employment and long-term success on the job. NEW! Expanded resources on Evolve now include videos, video evaluations, and practice examinations for the CMA, RMA, CCMA, and CMAA. NEW! Tie-in with SimChart for the Medical Office links important text content to opportunities for hands on practice working on Elsevier's educational EHR. NEW! Updated photographs and illustrations give readers a closer look at today's most pertinent information and skills for the medical assistant. NEW! Expanded A&P key terminology sections give readers ample terminology reinforcement, including proper pronunciations.

Medical Assisting Online is a ready-to-use online course that coordinates with Kinn's The Medical Assistant, 10th Edition. In this unique online world, you'll report for work to a fictitious medical practice, complete with virtual co-workers, physicians, and patients. With the help of an online mentor, you will be challenged to perform essential functions of the front and back office such as checking in patients, filing insurance claims, taking vital signs, administering medications, and much more. This "on-the-job" experience helps you apply the skills and concepts presented in the text to real-life practice scenarios. Along the way, you'll have the opportunity to test your understanding of important topics and improve your skills through valuable advice and feedback. Engaging Training Activities cover key curriculum competencies, guiding you step-by-step through important skills and encouraging you try them on your own. Self-comprehension questions and learning activities interspersed throughout allow you to check your comprehension and learn from feedback. Self-evaluation checklists at the end of each lesson help you review key objectives and check off the items you've mastered. Pop-up boxes provide further explanations, forms, or oversized figures, enabling you to "dig deeper" and see the tools and paperwork actually used on the job. Learning objectives are clearly stated at the beginning of each lesson, and revisited throughout in case you need more information on any topic. Ethical, legal, and communication-related considerations are addressed where appropriate, demonstrating how these issues can arise in many contexts and helping you decide the best course of action in a given situation. Automatically scored quizzes and exams help you evaluate your comprehension and check your grade at any time throughout the course. A glossary of definitions with audio pronunciations is linked to the appearance of each term, helping you learn the correct definitions in context. "Lounge Talk" allows you to review important concepts with your online mentor after completing each lesson. Discussion threads, chat rooms, and other communications tools help foster online collaboration with other students and the instructor.

Corresponding to the chapters in Health Insurance Today, 7th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. This edition expands its focus on case studies and the use of practice management software, adding more opportunities for application in the medical office. Performance-based activities include hands-on, application-based learning exercises that provide practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations, with Stop and Think exercises allowing you to apply critical thinking skills to solve a problem or answer a question. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Up-to-date information is included on all topics, including key topics like Medicare. NEW and expanded case studies and Internet Exploration activities are added. NEW! Additional performance objectives are included, using practice management software. NEW! Updated charts and forms are included.

There's no better way to get ready for your Medical Assisting certification exam! With some 2,500 practice questions and customized online tests, Elsevier's Medical Assisting Exam Review, 5th Edition provides complete preparation for all six certification exams — the CMA, RMA, CMAS, CCMA, CMAA, and CMAC. An illustrated, outline format makes it easy to review key medical assisting concepts and competencies, including anatomy and physiology, medical terminology, diseases and disorders, and administrative and clinical tasks. Written by medical assisting educator Deborah Holmes, this review includes answers and rationales for each question to help you strengthen any weak areas and prepare effectively for your certification exam. UNIQUE! Six certification exams are covered: the CMA (AAMA), RMA (AMT), CMAS (AMT), CCMA (NHA), CMAA (NHT), and CMAC (AMCA). Convenient, easy-to-follow outline format provides at-a-glance review of the subject areas typically found on certification exams for Medical Assisting. Complete test preparation includes three pretests — administrative, clinical, and general — as well as a comprehensive posttest, with answers and rationales for all questions. Study tips and test-taking strategies provide advice and insight into preparing effectively for your certification exam. Hundreds of additional practice questions are included on the Evolve companion website, along with flash cards and A&P animations, to boost your exam readiness and test-taking confidence. NEW! 2,500 questions — including 550 all-new questions — include answers, rationales, and mapping to six exam blueprints (CMA, RMA, CMAS, CCMA, CMAA, and CMAC). NEW content includes coverage of the Affordable Care Act, ICD-10, electronic office systems, vaccination updates, and more. NEW! Online test generator allows you to focus your practice on any topic and to create timed simulated exams. NEW! Records Management chapter tackles both paper management and Electronic Health Records, emphasizing the most up-to-date electronic ways to manage records. UPDATED! High-quality illustrations reinforce your understanding of medical assisting content and include photos of clinical equipment and supplies.

This basic pathophysiology textbook for medical assisting and other short programmes is organized by body system, under which are categories of diseases. Each disease state is formatted by signs and symptoms, aetiology, diagnosis and treatment.
