education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other

reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

John Hodgman—bestselling author, *The Daily Show*'s "Resident Expert," minor television celebrity, and deranged millionaire—brings us the third and final installment in his trilogy of *Complete World Knowledge*. In 2005, Dutton published *The Areas of My Expertise*, a handy little book of *Complete World Knowledge*, marked by the distinction that all of the fascinating trivia and amazing true facts were completely made up by its author, John Hodgman. At the time, Hodgman was merely a former literary agent and occasional scribbler of fake trivia. In short: a nobody. But during an interview on *The Daily Show* with Jon

Stewart, an incredible transformation occurred. He became a famous minor television personality. You may ask: During his whirlwind tornado ride through the high ether of minor fame and outrageous fortune, did John Hodgman forget how to write books of fake trivia? The answer is: Yes. Briefly. But soon, he remembered! And so he returned, crashing his Kansas farmhouse down upon the wicked witch of ignorance with *More Information Than You Require*, a New York Times bestseller containing even more mesmerizing and essential fake trivia, including seven hundred mole-man names (and their occupations). And now, John Hodgman completes his vision with *That Is All*, the last book in a trilogy of *Complete World Knowledge*. Like its predecessors, *That Is All* compiles incredibly handy made-up facts into brief articles, overlong lists, and beguiling

“ I love everything about this hilarious book except the font size. ” —Jon Stewart
Although his career as a bestselling author and on The Daily Show With Jon Stewart was founded on fake news and invented facts, in 2016 that routine didn ’ t seem as funny to John Hodgman anymore. Everyone is doing it now. Disarmed of falsehood, he was left only with the awful truth: John Hodgman is an older white male monster with bad facial hair, wandering like a privileged Sasquatch through three wildernesses: the hills of Western Massachusetts where he spent

much of his youth; the painful beaches of Maine that want to kill him (and some day will); and the metaphoric haunted forest of middle age that connects them.

Vacationland collects these real life wanderings, and through them you learn of the horror of freshwater clams, the evolutionary purpose of the mustache, and which animals to keep as pets and which to kill with traps and poison. There is also some advice on how to react when the people of coastal Maine try to sacrifice you to their strange god. Though wildly, Hodgmaniacally funny as usual, it is also a poignant and sincere account of one human facing his forties, those years when men in particular must stop pretending to be the children of bright potential they were and settle into the failing bodies of the wiser, weird dads that they are.
