The wildly popular YouTube star behind Clean My Space presents the breakthrough solution to cleaning better with less effort Melissa Maker is beloved by fans all over the world for her completely re-engineered approach to cleaning. As the dynamic new authority on home and living, Melissa knows that to invest any of our precious time in cleaning, we need to see big, long-lasting results. So, she developed her method to help us get the most out of our effort and keep our homes fresh and welcoming every day.

Access Free Viking Stove Manual

In her long-awaited debut book, she shares her revolutionary 3-step solution:

- Identify the most important areas (MIAs) in your home that need attention
- Select the proper products, tools, and techniques (PTT) for the job
- Implement these new cleaning routines so that they stick

Clean My Space takes the chore out of cleaning with Melissa's incredible tips and cleaning hacks (the power of pretreating!) her lightning fast 5-10 minute "express clean" routines for every room when time is tightest, and her techniques for cleaning even the most daunting places and spaces. And a big bonus: Melissa gives guidance on the best non-toxic, eco-conscious cleaning products and offers natural cleaning solution recipes you can make at home using essential oils to soothe and refresh. With Melissa's simple groundbreaking method you can truly live in a cleaner, more cheerful, and calming home all the time.

The odyssey begins, "James Polk Woodard, whose absence in the family graveyard in northwest Alabama led me on a search and the cause of his death in the Civil War." Merle recalls visiting the cemetery with her family, in the heat of an Alabama summer day, when only four years old. There were six souls sleeping there, including the child Tommy, and she wondered about an empty grave that just might hold the remains of her long searched for great-great-grandfather. And where was James Polk buried? "That night I dreamed of little Tommie who lay in the graveyard. He was killed in a fall from an ox cart when he was only seven, and there were three babies' graves; all these impressions were entered into the encyclopedia of my mind and have remained there."

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The Grande Armee of Napoleon Bonaparte is widely acknowledged to be one of the greatest fighting forces ever deployed. With it the French scored a streak of historic victories that gave them an unprecedented grip on power over the European continent. At its peak it was made up of 680,000 men, a huge multi-national force of officers, infantry and cavalry, artillery and support services masterminded by a superior and highly flexible system of corps, divisions, brigades and regiments, commanded by officers in which Napoleon placed a huge degree of trust and autonomy to operate within the outlines of his

strategic objectives. Looking closely at how this military machine was constructed and mobilized, Napoleon's Military Machine Operations Manual examines all aspects of the Grande Armee, from individual soldiers, what they wore, ate, slept in and were paid, to the chain of command, recruitment and training, intelligence and comms, and logistics and battle tactics. The legacy of Napoleon's army is assessed, as is how his organization and management initiatives influenced national armies around the world in ways that can still be seen today.

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.
