Following in the tradition of the first eight editions, the goal of this successful, issues-based textbook, Chemistry in Context, is to establish chemical principles on a need-to-know basis for non-science majors, enabling them to learn chemistry in the context of their own lives and significant issues facing science and the world. The non-traditional approach of Chemistry in Context reflects ...

These are the answers to the chapter-end questions in the 9th edition of Chang's Chemistry.. If you have a different edition of the text, do not despair. Most of the questions have the same numbers, and where they are different, you should readily be able to decipher the answer(s) to match the question(s); they will not be off by very many numbers.
