Project Managers can use Excel to plan each task in their project. Project planning spreadsheets should include columns that list the task and its owner, as well as the start and finish dates of each task. To easily track how the project is progressing, planners can also include a comparison between the estimated task dates and the actual ones.

Project management is not the entire operation of your company. It's just one segment, a specified project with a detailed plan as to how you and your business are going to achieve that goal. It's a plan detailed in a series of steps, each of them as important as the others. You must achieve one to properly move on to the next.
