Hello All, This is my first 'real' post so I hope I've got it in the right section and all! I am hoping that some of the more technical people out there can put my mind at ease regarding a problem I have with the auto gearbox on my Freelander 2. I bought the vehicle only a couple of weeks ago (it's a 2007 model with 110k on the clock).

Previously a Freelander 1 owner, I had the usual run of expensive technical problems with that, but the ride and off road capability was excellent. I bought the Freelander 2 from new as I wanted one with a sunroof and they didn't appear on demonstrators. I do fairly high mileage 35000 miles in 18 months. The economy is much better than the mark 1.
