quality study guides that feature detailed chapter summaries and analysis of major themes, characters, quotes, and essay topics.

Heat Summary and Study Guide | SuperSummary

Heat and temperature are different physical quantities. When two objects

Access PDF Heat Study Guide

with different temperatures are in contact with each other, heat flows from the hotter system to the colder one. Heat is a measure of energy. An increase or decrease in mechanical energy in a system always accompanies an equal decrease or increase of heat, respectively.
