The HP 1910 switches must be used indoors. You can mount your switch in a rack or on a workbench, but make sure:

- Adequate clearance is reserved at the air inlet and exhaust vents for ventilation.
- The rack or workbench has a good ventilation system.
- The rack is sturdy enough to support the switch and its accessories.

Re: HP V1910-48G stacking configuration Hi, I'm not going to speak about Stacking for (centralised) Management here, this just to be clear. The Switch type you have doesn't stack and you can't create a single logical Switch made up of stacked members, instead you can interconnect them using trunking uplinks.
