Consumer research has studied the impact of word-of-mouth communication (WOMC) extensively as it relates to how people perceive, purchase, and consume products. Defined simply as interpersonal communication regarding consumer information ( Godes & Mayzlin, 2004 ), WOMC has been applied broadly in consumer contexts, covering a range of “products” from tangible goods or services to people and ideas.

### **Pass-Along Effect: Investigating Word-of-Mouth Effects on ...**

Abstract Word of mouth (WOM) is important for online store survival and success. By focusing on Chinese online stores, this study investigates the effect of customer satisfaction and trust (CST) on customer WOM behaviour. Online shopping experience and social value are proposed as the main moderating factors in the context of Chinese e-commerce.

Abstract. Empirical studies investigating the antecedents of positive word of mouth (WOM) typically focus on the direct effects of consumers' satisfaction and dissatisfaction with previous purchasing experiences. The authors develop and test a more comprehensive model of the antecedents of positive WOM (both intentions and behaviors), including consumer identification and commitment.
