Equipment Do You Need for Night Sky Photography? Night sky photography requires comparatively little equipment compared to other photographic media.

How to Take Night Sky Photos: Guide to Night Sky Photography

I use and recommend the Nikkor 14-24mm f/2.8 lens for night sky and landscape photography. It is the best wide angle lens currently made for landscape and night photography. Camera Timer / Intervalometer: Most cameras will take up to a 30 second exposure without a timer. If you would like to capture long exposure images of the night sky, longer than 30 seconds, you'll need a timer.
