### **Owner's and Safety Manual - DOLMAR**

If you want a comparison between a Sachs Dolmar 120 Super and a Homelite 360 then compare a stock 350 Camero to a stock Camero with a straight 6 like the 250 CU IN. I for one own and build many of the Sach Dolmar saws and have used them since 1985 for production wood cutting, they are very well built and dependable as a rock.

I have a Sachs Dolmar 120si and had Mastermind woods port it. There is a thread on the saw. It is one wood eating machine. One of my absolute favorites. The 038 is a solid saw with loads of torque (not a screamer). 38 weighs pretty close to 44 and the 44 will walk away from it in the cut. The 44 Mastermind built for me is a beast.
