A report published during Obama's final days in office predicted that 83% of jobs in which people make \$20 dollars or less an hour will be subject to automation, and top financial institutions, such as Bain Capital and McKinsey, are predicting that around 20-30% of the total job market will disappear due to the development of autonomous technologies. All this, Yang contends, amounts to a war on normal people, and it's high time normal people started fighting back.
